## **DETAILED ACTION**

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Applicant has amended the claims to include the negative limitation of the supports being pivoted by an actuator wherein the actuator is not a printed sheet or sheets. This defines over US Patent No. 6,089,771 to Takemura which disclosed that the weight of the paper or stack is what caused the supports to pivot (Col. 33, lines 54+; see also Figs. 29a-d). Several references disclose supports which pivot due to an actuator which is not the stack (See e.g. US Patent No. 6,238,114 to Bennett, III et al.) however these references did not include an exit tray assembly which was collapsible with respect to the housing which is required by the claim language of the independent claims. Therefore, the independent claims have defined over the prior art of record and are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Allowable Subject Matter***

Claims 1, 2, 12-17 and 20-23 are allowed.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
